

Complimentary ACS student membership

Join ACS and launch your tech career with **personalised career support.**

Bridge the gap between study and work with the right skills and knowledge to enter Australia's crowded tech sector.

As an ACS member, you will:

-  Receive personalised advice and support from your local ACS branch manager and team
-  Understand the types of tech roles and career pathways available in Australia's ever-changing tech sector
-  Gain relevant technical and vital interpersonal skills with unlimited access to the ACS Learning Accelerator, a digital library of learning resources
-  Build contacts and relationships with employers with invitations to 600+ networking and professional development events a year
-  Be invited to join online community groups to help grow your network.

ACS is the professional association for Australia's tech sector and the largest community with 50,000+ members from across business, government and education. ACS is working with your education provider to offer you a complimentary student membership.
