

Assessment task 4 – Subcontractor and supplier quotations

Purpose of assessment

To determine requirements for subcontracting work.

This assessment task accounts for 10% of total assessment.

Assessment task

- List three items on this project that could be subcontracted if you do not have in-house capacity to complete the project.
- Develop an invitation to quote for one of the items. Include all necessary information about the project, including take off of quantities.
- Describe the advantages of subcontracting the work.
