

Assessment task 6 – Overall project costs estimate

Purpose of assessment

Develop estimate of project costs.

This assessment task accounts for 20% of total assessment.

Assessment task

Based on the information you have collected for previous activities, create a project cost estimate. Set it out in an Excel table or similar format. The following can be used as the key sections of your overall estimate:

- preliminaries
- service connections
- site works
- concrete
- carpentry
- cabinetry
- roof plumbing
- sanitary plumbing
- electrical
- floor, wall and ceiling finishes
- painting.
