

Profile 10: Small Local Government Agency

Sector: Government

Size: Small Agency

Functions: Detect, Recover

Security Profile

- **Detect (High Maturity):** The agency has advanced threat detection systems in place, including real-time monitoring and automated alerting. They have a dedicated security operations center that continuously monitors network activity.
- **Recover (Medium Maturity):** The agency has a recovery plan, but it is not tested regularly. Data backup processes are in place, but there is room for improvement in terms of redundancy and speed of recovery.
