

“The greatest value of a picture is when it forces us to notice what we never expected to see.”

John W. Tukey
American Statistician

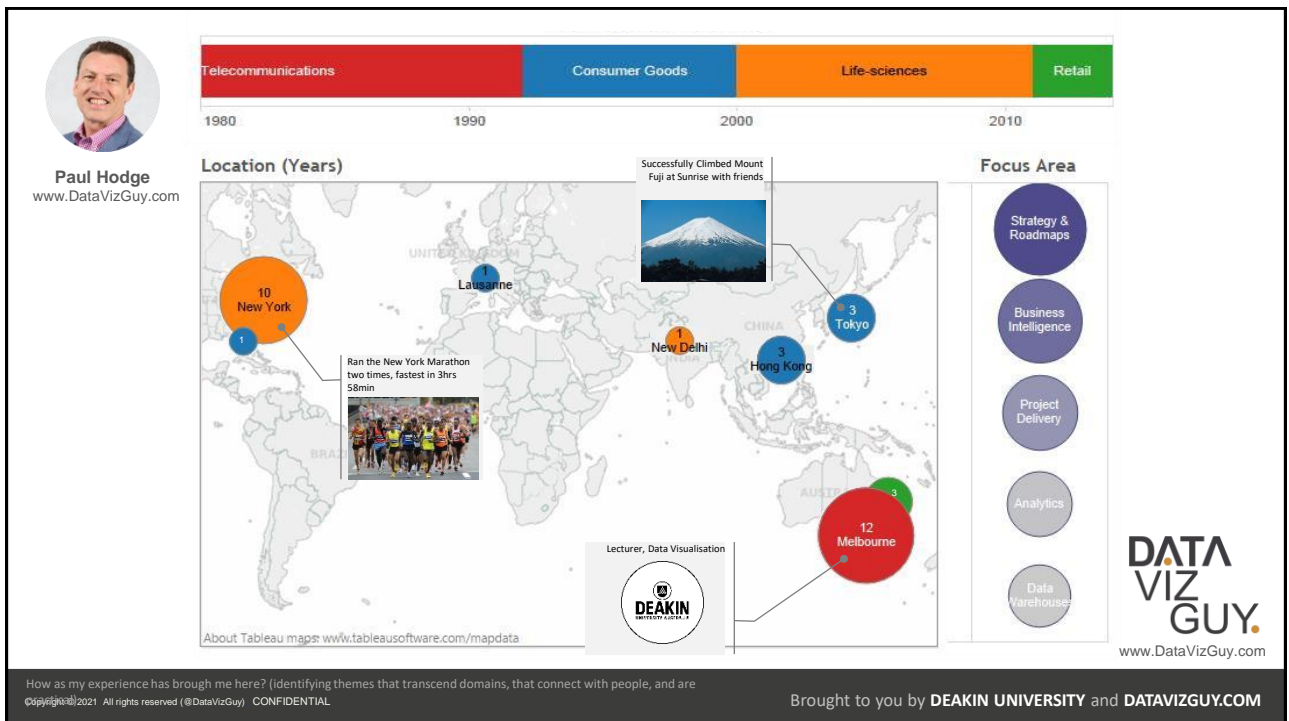

John Wilder Tukey (June 16, 1915 – July 26, 2000) was an American mathematician best known for development of the FFT algorithm and box plot. Born in New Bedford, Massachusetts in 1915, and obtained a B.A. in 1936 and M.Sc. in 1937, in chemistry, from Brown University, before moving to Princeton University where he received a Ph.D. in mathematics.

“There are two goals when presenting data: convey your story and establish credibility”

Edward Tufte

Edward Rolf Tufte (born 1942) is an American statistician and professor emeritus of political science, statistics, and computer science at Yale University. He is noted for his writings on information design and as a pioneer in the field of data visualization.

#SIDE BAR

Simplified Checklist

Do's

- ☐ Always start by defining your audience
- ☐ Understand how your data will be used to help your audience
- ☐ Think first about what you are communicating...
- ☐ Then select a chart charts (consider explain vs. explore)
- ☐ Try to show All the data (show patterns)
- ☐ High-light the exceptions and groups
- ☐ Use Axis starting at Zero
- ☐ Use sorting on Bar Charts (ranking)
- ☐ Use Labels on Data (place the legends as close to data as possible)

Don'ts

- ☐ Don't forget the goal and the story (what are you trying to explain)
- ☐ Don't use charts with no purpose
- ☐ Try to avoid complex charts (but do experiment)
- ☐ Don't overuse Pie Charts (but they can be useful)
- ☐ Use 3D (avoid)
- ☐ Don't use Stacked Bar Charts (avoid)
- ☐ Overuse of color, instead use color to high-light (be careful of color blindness)
- ☐ Logarithmic Axis (avoid)
- ☐ Don't forget to confirm your data sources, and watch for systemic data bias
- ☐ Don't always follow the rules

MIS771 – Data Visualisation Final Assignment

* Note: Data will change from previous Trimester

Submitted via Wordpress

1

Describe your project

Review Assessment Data:

- Select the Attributes you'd might like to build a story around
- Add your own analysis and/or supporting data

2

Answer a range of questions related to:

- Information
- Design
- Engagement

3

Capture Screenshots of an interactive Dashboard, plus embedded Link to Live Dashboard, with Explanations of work and Interactions (provide link to on-line Tableau dashboard)

Hints: Review the Scoring Rubric for details on how the assignment will be scored. Students should also consider the professional appearance and presentation in order to be scored well (eg. Tables of contents, page numbers. Citations, etc). Finally keep in mind that the Dashboard design in the assignment should be designed for your Audience, not to simply support your analysis.

Assignment Deadline: TBA
