Profile 2: Medium-sized Non-profit Organization

Sector: Healthcare
Size: Medium NPO
Functions: Respond, Recover

Security Profile

- **Respond (High Maturity):** The organization has a well-documented incident response plan, regularly tests it through tabletop exercises, and involves key stakeholders. They have a defined process for handling incidents and a communication plan for internal and external stakeholders.
- **Recover (Low Maturity):** Recovery plans are ad-hoc and not documented. There is no formal process for data backup or disaster recovery. The organization relies on third-party services without validating their recovery capabilities.
